

RESOLVED:

Article 1.- Implementation of the pilot project

Approve the implementation of the "Pilot Project to optimize health criteria for the processing of fishery products for direct human consumption for export purposes", for the period of one (01) year from 15 August 2020 to 15 August 2021, as provided for in Supreme Decree No. 012-2020-PRODUCE.

Article 2.- Participation in the pilot project

2.1 Operators of industrial fisheries processing plants for direct human consumption, with a valid operating license and health clearance, interested in participating in the pilot project implemented by Article 1 of this Executive Presidency Resolution, express their interest in writing through an application entered to the SANIPES Functional Citizen Orientation and Document Management Unit or by [mail tramitesdoc@sanipes.gob.pe](mailto:tramitesdoc@sanipes.gob.pe), in accordance with the format provided in the Annex to this Executive Resolution.

2.2 This statement should be addressed to the Health and Fisheries and Aquaculture Standards Directorate (DSNPA), in view of the Sub-Directorate of Fisheries Safety (SDIP), until 14 September 2020.

Article 3.- Management and monitoring of the pilot project

To commission the Sub-Directorate of Fisheries Safety (SDIP) of the Health and Fisheries and Aquaculture Standards Directorate (DSNPA), on behalf of the Executive Presidency of SANIPES, to manage and monitor the pilot project implemented through article 1 of this Executive Presidency Resolution, including the preparation of monthly reports on the development of the pilot project.

Article 4.- Temporary measures for the development of the pilot project

4.1 Prior to the processing stage of raw materials of hydrobiological origin, the operator updates, internally, the Hazard Analysis Plan and Critical Control Points (APPCC), the Manual of Good Manufacturing Practices (BPM) and the Hygiene and Sanitation Manual (HS) according to the dangers of that raw material entering its production lines, the processes that are developed and the final hydrobiological product to be obtained as part of the development of the pilot project, which is verified in the corresponding health control actions.

4.2 For the entry of raw materials of hydrobiological origin imported into processing plants, operators participating in the pilot project implemented through Article 1 of this Executive Presidency Resolution only require the application of the "Official Certificate of Temporary Detention for Imported or Re-Entry Into The Country" (Administrative Procedure No. 38) of the SANIPES Single Text of Administrative Procedures (TUPA) of SANIPES, approved by Supreme Decree No. 025-2015-PRODUCE and its amendments.

4.3 In addition, raw material must be labelled as "MATERIA PRIMA, PROHIBIDA AL CONSUMO HUMANO INMEDIATO"- "RAW MATERIAL, PROHIBITED IMMEDIATE HUMAN CONSUMPTION" under the administrative responsibility of the operator in case of non-compliance, without prejudice to other legal actions that are applicable.

4.4 For the export of final hydrobiological products obtained in the framework of the development of the pilot project, operators request, without exception, the "Official Health Certificate for Fishery and

Aquaculture Products for Export Purposes" (Administrative Procedure No. 30), of the SANIPES Single Text of Administrative Procedures (TUPA), approved by Supreme Decree No. 025-2015-PRODUCE and its amendments.

Article 5.- Health control of activities under the pilot project

The Directorate of Fisheries and Aquaculture Supervision and Control (DSFPA) adopts and implements, within the competences of SANIPES, the corresponding measures for the health control of operators of industrial fisheries processing plants for direct human consumption participating in the pilot project implemented through Article 1 of this Executive Presidency Resolution, without prejudice to informing or communicating to other entities for the appropriate actions within the framework of their competences.

Article 6.- Term

This Executive Presidency Resolution takes effect from 15 August 2020.

Article 7.- Publication

This Executive Presidency Resolution is published on the institutional portal of the National Fisheries Health Agency (www.sanipes.gob.pe), on the same day as the publication of this resolution in the official gazette El Peruano.
